basic

- Introduction to the guitar and fret board
- Fundamentals of music theory and scores
- Basic open and bar chords shapes and positions
- Basic rhythms, melodies and dynamic contrasts
- Incorporation of plucking and strumming patterns

Upon completion, students should be able to interpret and execute pieces with fluency and accuracy through music charts.

intermediate

- Advanced chord substitution and voicing
- Intermediary techniques such as slides, hammer-ons and bending
- Arpeggio passages, rhythmic fill-ins, groove and melodic decorations
- Sensitivity to vocal line i.e. when to lead and support
- Short fingerstyle instrumental solos and ad lib bars

Upon completion, students should be equipped with a strong command of guitar, technical control and understanding on chords progressions essential to play-by-ear.

advanced

- Complex picking, damping, tapping techniques and approaches
- Physical and expressive techniques, sight-reading and modulation
- Extended instrumental solos and ad lib bars
- Chord identification and improvisation through aural training
- Different playing styles i.e. jazz, bossa nova and blues

Upon completion, students should be able to perform confidently without scores, and communicate mood and musical personality effectively.
